THE PLAY

1. Pick out a particularly dense-looking target . . . and by "dense" I'm not talking mass over volume.
2. Point to your drink and mention that you're only allowed to drink Tang up in space. When she asks if you're an astronaut, immediately shush her. Look around, then say in a hushed tone that you shouldn't be telling her this but you're actually in a top secret government space program called Secret NASA . . . or SNASA.
3. Offer to demonstrate what reentry feels like when returning from the smoon.
